**Mr Rob Langton Managing Director
MMS Ship Repair & Dry Dock Co. Ltd
Alexandra Dock
Hull HU9 1TA**

COMENDATION

Dear Sir

I refer to **MMS's** recent attendance to the **MV Swift Splash** in the Port of Hull.

The vessel required to undertake unplanned repairs of a structural and mechanical nature, having an escalating scope and changing priority.

I could not let the occasion pass without highly commending **Mr Rob Hicks** and his **Team**, for their professionalism in their address of all requirements with a minimum downtime.

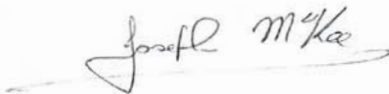

While the total workscope may not be significant in terms of MMS's capacity, their ability to understand and react to requirements instantly, with a Team of experienced Artisans, working flexible shifts to complete Project Milestones, was to say the least, extremely gratifying.

Every question posed an answer, every problem, a solution.

Throughout repairs, we found the entire Team self motivated with good internal communications, ensuring all work processes flowed smoothly without delay between phases, sadly a rare commodity in World Ship Repair today.

I look forward to the next occasion to attend your facility and benefit from the high Standards of Service. Additionally I would highly recommend the use of your Services to any other organisation that may be fortunate enough to have them offered.

Best Regards,

Joseph McKee
